YOUR CONSERVATORY IS TOO COLD IN THE WINTER AND TOO HOT IN THE SUMMER, ISN'T IT?

This is an age old problem that Nu-Look has been solving for the last 10 years.

In the winter, it's bitterly cold, you notice that it's a drain on your heating bills. You find yourself wishing your conservatory was a usable room all year round.

In the summer, your conservatory could be mistaken for a greenhouse, and the glare from the sun is almost blinding.

How do we know all this? Your problems aren't unique. Every single customer has the same issues, and we have one very simple solution.

A Nu-Look insulated tiled roof solution.

Let us help *you*

WHY NU-LOOK?

Put simply, Nu-Look is a company that you can trust to get the job done properly. As a family business, we thrive on recommendations, and we always strive to do the very best for our customers.

This, paired with our extensive industry experience makes Nu-Look the perfect company to transform your under performing conservatory.

We work almost nationwide. Nothing is more pivotal to our business than maintaining an excellent relationship with our valued customers.

Over 40% of our annual sales are the result of Nu-Look being recommended to a friend, relative or neighbour. We want to make your conservatory more usable too.

RAVE REVIEWS

Browse our latest reviews on Google, Which, Checkatrade or TrustATrader! Renovating your home is a big decision, and we want you to put your trust in Nu-Look. Don't just take our word for it though, listen to what our 4,000 customers have to say!

10 YEAR GUARANTEE

When you purchase your Nu-Look Roof, you will be supplied with a 10 year insurance backed guarantee. Our guarantees are provided by the Qualitymark Protection, and they even offer deposit protection!

CRYSTAL CLEAR

We pride ourselves on being an honest and transparent company. We never inflate your quotations to make it seem that you're getting a better discount. Every one of our customers gets a fair price, every time.

Case Study

Timber is great for insulating, and providing a reliable structure!

All of our materials are cut on site, so your Nu-Look roof is truly bespoke! This eliminates any manufacturing errors, and gives our fitters complete control over your installation!

Underneath the TAPCO tiles, a timber base is constructed. This provides an excellent structural facility to the conservatory and is a perfect base for supporting the insulation and lightweight TAPCO tiles.

Meet Our Team

SHARON RECEPTIONIST

Sharon is our Northampton Showroom Receptionist and has been for the past 6 years, she brings a warm and welcoming presence to our space, greeting visitors with a genuine smile and ensuring they feel valued from the moment you arrive.

With her wealth of knowledge and expertise in Nu-Look, Sharon is always prepared to offer invaluable assistance during your visit to our Northampton Showroom

MATT SENIOR SURVEYOR

Matt has been a Nu-Look Surveyor for over 3 years. He brings a wealth of experience to the table.

Matt has been involved in the construction and home improvement industry for over 30 years, and is experienced in carpentry, installations and surveying.

After your initial sales consultation, Matt will visit your property to carry out the survey. He will be able to answer any questions you may have regarding your installation.

PAUL SALES MANAGER

Paul is the Sales Manager for Nu-Look. He has been with the business for over 7 years and started as a Sales Executive.

Paul maintains good relationships with our customers, making their journey seamless from start to finish.

**GAVYN
SALES EXECUTIVE**

Gavyn has worked for Nu-Look for 6 years. His previous experience in the construction and conservatory industry allows him to provide the best advice and ideal solutions for the more complex jobs.

Gavyn always provides his customers with open and transparent advice and likes to see the jobs through from sale to completion.

**EMILY
OFFICE MANAGER**

Emily plays a vital role in overseeing our entire office, ensuring that everything runs efficiently and smoothly on a daily basis. In addition to managing operations, she leads our customer service efforts, making sure every Nu-Look customer receives the highest level of care and attention.

With her wealth of experience in office management and customer support, Emily brings both professionalism and warmth to her role.

**EDDIE
SENIOR SALES EXECUTIVE**

Eddie is Nu-Look's Senior Sales Executive, and has been closely involved with the business since it began.

Eddie is uncle to the Managing Director. He is keen to continue delivering the dedication that only a family business can provide.

Eddie is also incredibly experienced in home improvements. He has previously owned our sister company - Park Lane Windows.

RESEARCH

You've decided you want to be able to use your conservatory all year round, and you think Nu-Look is the best company for the job. You'll speak to our expert sales associate to arrange an appointment, and get advice on how we can best help improve your home.

APPOINTMENT

One of our experienced sales executives will visit your home at a time that is convenient for you. They will explain to you what we can achieve! They'll measure, and draw up your quotation should you wish to proceed with Nu-Look.

ORDER

Our Sales Executive will return to your property and pick up the signed order. They'll also answer any further questions you may have and provide a timeline for your installation.

SURVEY

Our surveyors will aim to get to your property with 28 working days. They will ensure that your project can safely go ahead.

INSTALLATION

The initial build will usually take between 3 and 5 days, depending on the size of your conservatory. In the vast majority of instances the installation will be fully complete inside of 2 weeks, including plastering and electrical works.

GUARANTEE

After the final balance has been paid, you will receive your guarantee.

We're Trusted

LISTEN TO WHAT OUR 4,000 CUSTOMERS HAVE TO SAY

GOOGLE

"Excellent, from the start of the process with sales, through to survey and then build. Nu-Look did an extremely professional job all round. We are really pleased with our new sun room and our old hot and cold conservatory is now an all year round additional space for us to use.

Everyone in the team was timely, polite, helpful. They were also extremely patient in answering our questions. We were very impressed with the skilful work they carried out and we would highly recommend Nu-Look to anyone. Thanks Nu-Look!"

CHECKATRADE

"From start to finish Nu-Look have been excellent to deal with. There were no high pressure salesmen either. Once we placed the order we were given a date which they kept to. We had 2 excellent roofers, who carried on to finish on their last day in spite of torrential rain. We are very pleased with the standard of the work and everyone left the place very tidy. I was recommended by a neighbour and would 100% recommend Nu-Look to anyone. I have an extra room. Thank you."

TRUSTATRADER

"Having had a Nu-Look conservatory roof conversion recently I would like to compliment everyone concerned with the project. From the sales representative Dave, the surveyor Matt, the construction team, the plasterer and the electricians - I can't fault any one of them.

Everyone involved was a credit to Nu-Look and I wouldn't hesitate to recommend this company to anyone interested in a conservatory roof conversion."

WHICH

"Our conservatory roof had started to leak and was looking tired. Even though the conservatory is North facing we still suffered the usual polycarbonate roof problems. We considered various options, but finally contacted Nu-Look.

We've already noticed how much cooler the conservatory is during these recent very warm days. We cannot speak highly enough of everyone from Nu-Look who we came into contact with. This was a 1st Class Job, professionally done on time & on budget. We'd have absolutely no hesitation in recommending Nu-Look to friends & family. What more is there to say?"

TRUSTATRADER

"Nu-Look Conservatory Roof Solutions were brilliant from day one. They presented clarity of cost, great finance packages and a clear schedule of works. The fitting team were punctual and kept us informed. There were no delays and they showed a great standard of work with good aftercare. This has been a great experience. Highly recommended and competitive."

Case Study

TURNING AN UNUSABLE SPACE INTO THE FAMILY HUB

By tiling conservatory roofs, we're able to achieve amazing low U-Values of just 0.14. This means that less energy is required to maintain a usable living space. We use several different layers of insulation to ensure optimum thermal efficiency, meaning your conservatory can be enjoyed all year round!

If you're looking to maximise the natural light, why not go for a Velux Window?

They feature a top control bar for easy opening even with furniture below!

USABILITY & THERMAL EFFICIENCY

Finance Your Future

At Nu-Look Conservatory Roof Solutions, we want to make life easy for you. We think a usable conservatory should be accessible to everyone who wants to feel the benefits of a Nu-Look roof. That's why we offer a variety of convenient low interest finance options. Making an application is simple, and we promise you a quick decision. Everything can be arranged with you in the comfort of your own home or at our showroom.

BUY NOW PAY LATER

Pay a 25% deposit then take up to 6 Months from installation to repay the balance in full & pay no interest, (£29 Exit Fee applies.) If you decide not to repay the balance within the 6 Months you will commence 120 Monthly Payments at 14.9% APR. If the loan is not settled in full within the deferral period, then interest will have accrued from the start of the agreement on any amount still outstanding at the end of the deferral period. Interest will continue to be charged until the agreement is repaid in full.

LOW RATE FINANCE - 60 MONTHLY REPAYMENTS

Pay as little as £99 or pay 25% Deposit & then spread the cost over 60 Months using our Low Rate Scheme, 9.9% Representative. Monthly payments commence 3 months after installation & you can make additional repayments without penalty, which allows you to control the term of the loan and reduce the amount of interest you would pay.

LOW RATE FINANCE - 120 MONTHLY REPAYMENTS

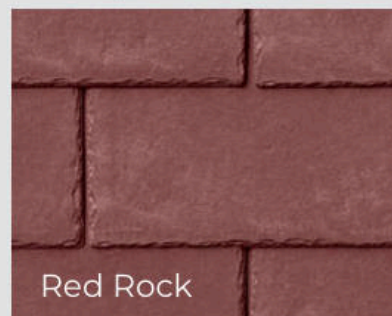

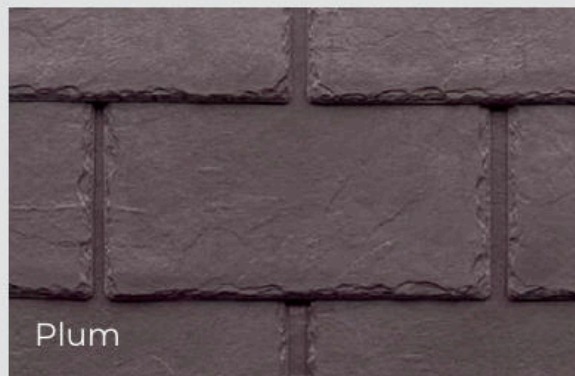

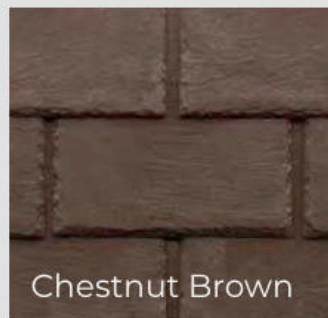

Pay as little as £99 or pay 25% Deposit & then spread the cost over 120 Months using our Low Rate Scheme, 9.9% APR Representative. Monthly payments commence 3 months after installation & you can make additional repayments without penalty, which allows you to control the term of the loan and reduce the amount of interest you would pay.

BEFORE & AFTER

Tiles that tempt you

We use Tapco tiles which are manufactured as a lightweight alternative to a traditional tile making them appear as natural looking tile and give a professional finish.

Once installed, our Tapco tiles achieve a low weight of only 12kg per square meter!

We cut all of our materials on site, providing you with a truly bespoke roof, thus eliminating manufacturing errors!

WHY DO WE USE TAPCO TILES?

- ✓ Tapco tile finish in a range of premium colours
- ✓ Manufactured from recyclable limestone and polypropylene
- ✓ BBA approved and CE marked to ensure wind, rain and snow resistance

How do *we* work?

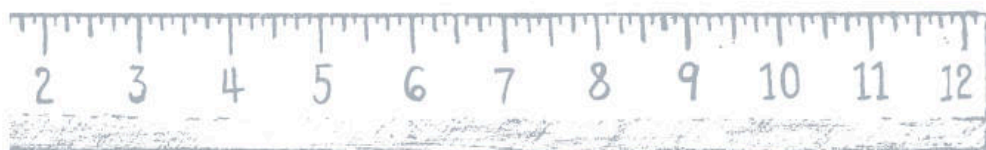

Having any home improvement work carried out is always exciting - especially when you've chosen to work with Nu-Look! Not only will you now have a conservatory that's enjoyable in winter and summer, your new-found retreat is guaranteed to bring you comfort for the next 10 years.

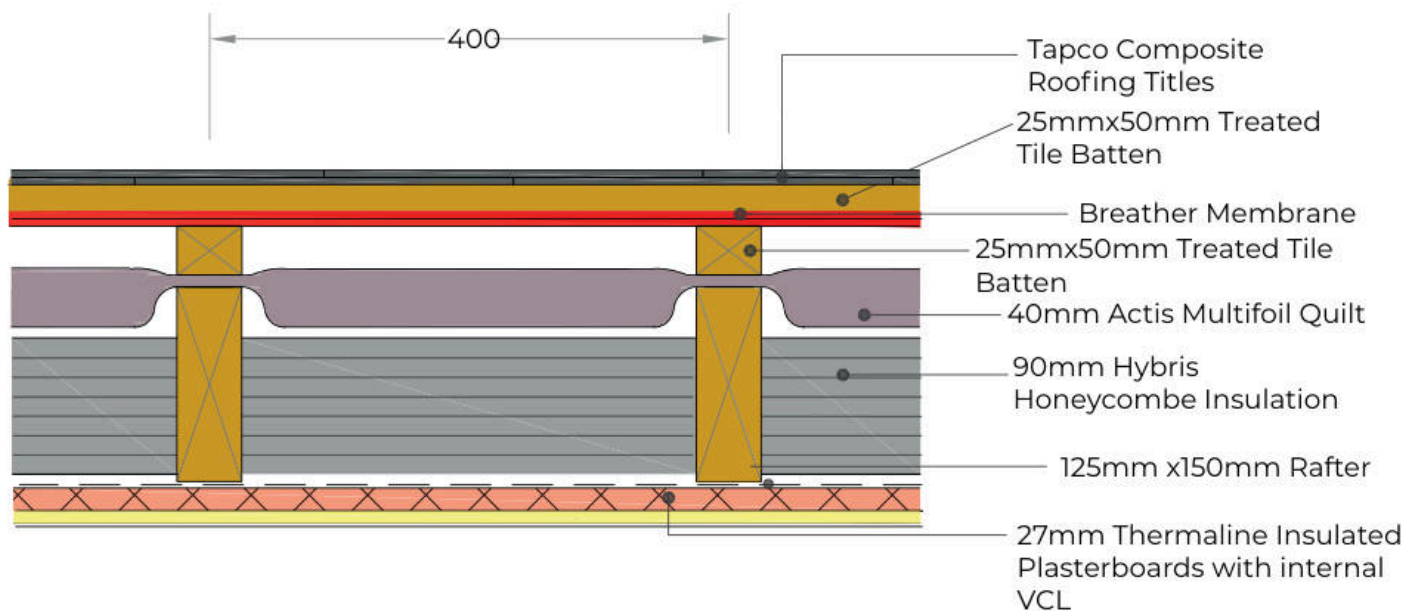

Nu-Look aim to create minimal disruption to your life whilst we transform your conservatory. On average it takes two weeks for the entire process to be completed. This is, however, dependent on your conservatory size and your exact requirements.

After removing your pre-existing glass or polycarbonate roof, Nu-Look will construct a timber structure which will provide the foundation for your replacement roof. All of our materials are cut on site by the installation team. This is important for two reasons. Firstly, it allows our experienced fitters to build you a bespoke roofing system that can be tailored to your every need. Secondly, it completely eradicates the possibility of any manufacturing defects which could disrupt your installation!

Once the base has been constructed we install several layers of insulation to make sure your new roof is energy efficient, so you can be assured your conservatory will meet all of the regulatory requirements.

The insulation is then covered with plasterboard, ready to be skimmed. This system achieves a low U -Value of 0.14, and will create the perfect family space for years to come.

JD4508:

Pitched roof @ 400mm Centres

U-value = 0.14 W/m²K

The **British Board of Agrément** (BBA) is a construction industry approvals body. Originally set up by the government in 1966 it certifies over 200 different product sectors in the UK, the largest being that of insulation and roofing.

As the **only** BBA **Approved Installer** of Conservatory warm roof systems in the UK you can be totally reassured that NuLook's warm roof system is second to none. Being certified as a **BBA Improved Installer** ensures that the products we use, the roofing system itself, all of our administrative systems and installation personnel are fully compliant with all current legislation, regulation, record keeping and health and safety. Regular office and field audits by the BBA's own personnel ensure that all aspects of our business are transparent and conform to all the requirements required to deliver an exemplary service and product to all of our customers. Buy in confidence with our BBA approved system and Improved Installer status.

FREQUENTLY ASKED QUESTIONS

HOW DIFFERENT WILL MY CONSERVATORY REALLY BE?

Once your Nu-Look solid roof has been installed it will have the same insulation value as any other room within your property. Installing a warm roof will bring the U-value down to $0.14\text{w/m}^2\text{k}$ which is a huge transformation compared to its previous U-value which would probably have been around $1.7\text{w/m}^2\text{k}$.

The low U-value of a Nu-Look solid roof speaks for itself as far as energy efficiency is concerned. Did you know that a typical polycarbonate roof provides up to 8 times less insulation and a glass roof up to 6 times less insulation?

WILL GETTING A NU-LOOK ROOF MAKE MY CONSERVATORY LOSE LIGHT?

On average, the installation of the system results in only minimal loss of light (around 5% for polycarbonate roofs and around 11% for glass). As a large amount of glazing remains this is barely noticeable. Much of the light that enters a conservatory enters through the doors and windows. Our customers find this light reflects off the new conservatory ceiling and creates less glare light. You could even change the shape of your conservatory to allow the maximum natural light in!

HOW DOES A NEW CONSERVATORY ROOF COMPARE TO ROOF BLINDS?

Blinds are fitted to the interior of the conservatory roof and are designed to reduce brightness of the solar glare rather than act as an insulating material. Therefore they let solar heat straight in and do not reduce heat loss from inside the conservatory. Our system dramatically out performs any conservatory roof product on the market today and turns your conservatory into an additional room. It is this superior insulation that prevents the heat build up in summer and the extreme cold temperatures in winter.

CAN I REPLACE CERTAIN FEATURES OF MY CONSERVATORY?

Because we are completely replacing your roof, we can offer a number of options as far as lighting is concerned. You may wish to have spot lights installed in the new ceiling of your conservatory or maybe even have lighting fitted within a pelmet - any of these options are available. We also offer Velux windows if you want to maximise the natural light in your conservatory!

Nu-Look work closely with a window and door specialist, who will facilitate the fitting of new frames being added to your conservatory. To see the full range of colours available, visit our website!

HOW LONG DOES THE PROCESS OF GETTING A NU-LOOK ROOF TAKE?

The initial build will usually take between 3 and 5 days, depending on the size of your conservatory. In the vast majority of instances the installation will be fully complete within 2 weeks, including plastering and electrical works.
